COUNTY BILL IN THE HOUSE

REPRESENTATIVES PASS IT ON SECOND READING AND THEN RECONSIDER.

The House passed the Senate County bill on second reading just before noon today and then began to wonder if the bill had not been too rapid. As a result the last thing before recess was a motion to reconsider the action taken and consider the bill again on second reading. The bill was taken up as the first thing on the order of the day, and without any hesitation it was passed. Then a motion was made to refer it to the committee which had the House County bill.

"We shall attach the House amendments and send the bill back to the Senate," said Representative Chillingworth, chairman of the committee "and in this way save some days' time. We can pass the bill on third reading at once, with our amendments attached, and it can go to conference. In that way alone can the bill have any chance of passing at this session. The legislation is really very much in danger if there is much more delay."

WANT HACK BILL KILLED

SENATE RECEIVES THREE COMMUNICATIONS OF PROTEST AGAINST THE HACK BILL.

The Chinese community has begun to protest against the "Hackman's" Bill of the House. This morning three communications on this score were received by the Senate from various Chinese of the city.

One of the petitions was from the Chinese Merchants' Association and the other was from the United Chinese Society. Both of these communications included resolutions of protest against the enactment of the bill. The resolutions were adopted by the two organizations on Saturday and urged the defeat of the bill, on the grounds that it was class legislation and would drive the Chinese hack drivers out of that business, and would deprive them of their money in the hack and it was not right that this class legislation should be permitted.

The petition stated that if the Hackman's Bill became a law it would result in the Chinese hack drivers being deprived of that means of earning a livelihood. The Chinese had invested their money in the hack and it was not right that this class legislation should be permitted.

The petition called attention to the fact that the petitioners had had the records of the police court for the last five years examined, and it was there learned that not 20 per cent of those convicted of having caused accidents or for various violations of the hack ordinance were Chinese. The Chinese population of Honolulu was 19,000 and the petitioners thought that that portion of the community should receive some consideration in the matter of conveyances driven by people who could speak their native tongue.

The petition stated that there were only 90 Chinese hack drivers. The petition also claimed that the bill was in the interests of white people who wanted to get a monopoly on the business. An appeal to the American idea of fair play was made. Many of the Chinese hack drivers were citizens of the United States and those who were not were prevented by law from becoming citizens. The Senate was asked to defeat the bill. The endorsement of leading Chinese merchants was attached to the petition.

All of the communications were tabled to be considered with the House bill, when it comes up for first reading.

HILO MASONS WILL BUILD

PLANS PREPARED FOR A \$20,000 TEMPLE TO INCLUDE A THEATRE-ORIENTAL IN STYLE.

The Masonic Lodge of Hilo, over 100 members strong, has under consideration plans for a new temple, which, when constructed, will furnish a home worthy of the loyal membership and a credit to the city of Hilo. The lodge has owned, now for some time, a fine building lot on upper Waianuenu street, and before two years are gone by there will be completed on this site one of the most beautiful buildings in the Islands.

Preliminary plans of oriental design have just been completed by Architect Richley. These with at least only slight alterations will doubtless be accepted and in the not distant future a \$20,000 Masonic Temple will be constructed.

In the building, oriental style of architecture will predominate, with variations conformable with tropical conditions. The columns, towers and windows in oriental effect will give the structure a beauty and individuality difficult to duplicate. The building will be T shaped, fronting on Waianuenu street. The stem will be a one-story extension in the rear 50x100 feet and will be used for theatricals, dancing hall and assembly room. The main part of the building will be 35x100 feet, two stories with basement. A broad flight of steps will reach the grand entrance from the street. The main room on the first floor will be a foyer, from which wide doors lead to the theatre. The foyer will be 25x50 feet, flanked by parlors for both ladies and gentlemen. The foyer will be furnished and ornamented with upholstered nooks and round settees. On the mauka corner will be a porte cochere leading by a flight of steps to the ladies parlor.

AUCTION SALE OF Brick Building.

ON FRIDAY, APR. 3, AT 12 O'CLOCK NOON.

I will sell at Public Auction by order of the Board of Trustees, the brick building known as the Odd Fellows Hall, situated on Fort street, near King street, together with the adjoining wooden buildings.

Terms Cash, U. S. Gold Coin. Thirty days time for removal of building.

JAS. F. MORGAN, AUCTIONEER.

The Masonic hall will take up the entire upper story. The main hall will be 35x50 feet with a reception room 16x35 and store room 13x18, adjoining. The entrance to the hall is by stairway reached from the front porch by a private door. The front of the building is to be richly ornamented with porches on both first and second stories.

The basement will be arranged for dining room and kitchen. The banquet hall will be 15x20 feet.

The theater portion of the building will seat from 1000 to 1200 people. The stage and dressing rooms will occupy a space 28x50 feet. The proscenium arch will be 16 feet in height. The curtain loft will be adequate to take care of the scenic accessories of the best plays. Three boxes will be constructed on each side and a balcony 28x50 feet will swell the seating capacity.

Around the auditorium will be constructed an eight-foot lanai to which four exits will be provided on either side.

The building will be provided with the best arrangements for light and ventilation.—Hilo Tribune.
